

Safety Eyewear - Visitor's / High Impact

Visitors/High Impact Safety Glasses

Lucent™ Visitor's Glasses

These Visitor's Glasses offer impact protection in a UV protective polycarbonate lens. The lenses provide comfortable coverage even when worn over prescription glasses. A molded bridge keeps glasses in place. The glasses have vented side shields and are available in clear or grey lenses.

Force™ High Impact Glasses

These High Impact Glasses are made of a UV protective polycarbonate lens providing high impact protection. The wrap around lens offers an additional upper and lower shield and wide temple guards to eliminate splash/spray contact with the eye area. The scratch resistant lenses sit comfortably on the face with a molded bridge. These glasses can be worn over prescription eyewear. Available in anti-fog.

ANSI Z87.1-1989

Applications: Construction, machining, milling, industrial, laboratory and similar industries requiring eye protection from particulates and splash.

Features and Benefits

- Strong Polycarbonate
- Anti-fog
- Scratch Resistant
- 99.9% UV Protective
- Optically Correct
- Lightweight
- Durable
- Versatile Fit

ANSI Standards

ANSI Standard Z87.1-1989 details strict requirements for impact and penetration resistance. Rigorous testing includes a high mass impact test and high velocity impact test for spectacles, goggles, faceshields and welding helmets. All eyewear shown on this page meet the ANSI standard.
