

StaticAIRE™ Still Air Ionizer
 Model IN1000

Eliminate Static in Tight Areas Without Air-flow.

The StaticAIRE™ IN1000 Still Air Ionizer quickly and effectively eliminates static without using airflow. It's designed for use in a variety of localized applications where space is limited, and is ideal for installation inside equipment. The IN1000 is an ideal product for mini-environments, analytical laboratories and cleanrooms.

The StaticAIRE™ IN1000 Ionizer was designed to be virtually maintenance free. The IN1000 is factory set to achieve a maximum balanced ion output in standard, non-air assisted applications. Balance and pulse rate can be adjusted quickly to achieve optimal performance with trimpots located on the front of the ionizer.

Meets or exceeds requirements of ANSI ESD-S20.20 per ANSI/ESD STM 3.1

Features

- Quickly Eliminate Static Charges in Localized Areas without Airflow
- Effective ionization range: 12"
- Ideal Where Space Is Limited and Installed Inside Equipment
- Easy Adjustment and Calibration

Ionizing Powders

Applications:

Quickly eliminate static charges in localized areas without airflow - 12" and under. Designed for limited space applications and is ideal for installation inside equipment, and mini-environments.

Specifications:

Dimensions	3.5" W x 3.1" L x 3.75" H 127mm W x 63.5mm L x 140mm H	Indicators	On, Positive & Negative Rate
Balance @12"	+/- 25 Volts Maximum	Mounting	Plate with (6) six screw holes
Decay @12"	< 15 seconds	On/Off	Power Switch
Power	110-240 VAC 50/60 Hz	Certifications	CE
Adjustment	Phillips Head Trimpots	Warranty	1year limited warranty

Part Numbers:
