**Disclaimer.** All statements of technical information are believed to be true and are based upon tests we believe to be reliable. The proper use and application for this product must be the responsibility of the user. The statements herein shall have no force or effect.

## INSTALLATION

1. Unroll wire.
2. Screw to underside of bench.
3. Ground with #10 ring.\*

\*Always consult your facilities manager before grounding.

## APPLICATIONS

A reliable and durable work station grounding unit that allows two workers to be grounded at the same time. Non-slip banana jacks maintain an excellent connection to various wrist strap sets. The parking jacks help keep workstations clutter free. Molded construction resists bending and helps protect resistors.
